

HARTMANN

Sterillium® pure

For the love of hands

Colourant- and
fragrance-free

**Fast-acting, even
against noroviruses**

Broad-spectrum efficacy with a short contact time against bacteria and viruses (limited spectrum of virucidal activity) – effective against norovirus in as little as 15 seconds.

Broad approval

Broad infection protection for everyone. Ideal for any setting where hygiene and safety are top priorities – suitable for health-care professionals, patients, family members and even for children.

**Suitable for people with
allergies and asthma**

As an ECARF-certified hand disinfectant, Sterillium® pure has been proven to be particularly suitable for sensitive and atopic skin as well as for asthmatics.

**Up to 57%¹ more
skin hydration**

Increased skin hydration when using Sterillium® pure – up to 57% in just 4 days.¹ It also helps prevent skin dryness during the workday and increases usage frequency (compliance).

Most popular brand²

Sterillium® is one of the most popular brands of hand disinfectant in the healthcare sector. This popularity encourages frequent use, thereby contributing to long-term workplace safety.

Sterillium® pure is the ECARF-certified hand disinfectant that combines broad-spectrum efficacy with very good skin compatibility – for greater safety in every setting.
