Taking care of
what matters

Going further for health

The HARTMANN Group is going strong with more than 10,700 employees in over 30 countries worldwide. HARTMANN's mission is to go further for health by supporting healthcare professionals in their daily work and bringing that expertise into the home.

The company focuses on developing products and solutions that sustainably improve the quality of medical treatments and offer added value to healthcare professionals and patients – not only through easier applications but also through positive clinical outcomes.

For Incontinence Management, we are taking care of what matters by

- **providing optimal leakage protection and maintaining healthy skin** to enable those living with incontinence to get on with their lives.
- **focusing on the healthcare providers and their needs** to improve their daily work.
- using cutting edge technology to fulfill the highest demands in **quality, reliability, and efficacy**.
- **developing future-minded solutions** that provide caregivers with tools which meet their needs.

HARTMANN has produced incontinence products since 1974 and today, we are a leading global manufacturer of adult incontinence products. Using extensive research, we find comprehensive solutions that meet practical demands of consumers and caregivers. Through the use of our products, customers regain a feeling of protection and confidence.

WORLD HEADQUARTERS

Clinical research supports that MoliCare® incontinence products provide optimal leakage protection and maintain healthy skin.

HARTMANN has worked with healthcare professionals to explore the benefits of MoliCare’s unique design in clinical studies. Preventing Incontinence Associated Dermatitis (IAD) protects the well-being of the consumer and avoids unnecessary caregiver effort and time.

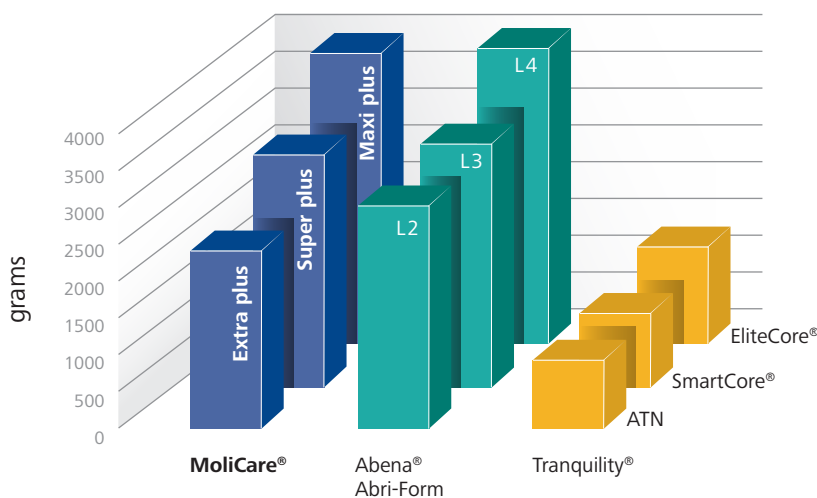

Clinical Evidence

- Absorbent briefs containing Curly Fiber technology have the potential to prevent IAD by showing significantly lower skin pH values compared to standard products when skin is exposed to deteriorating and increasingly alkaline urine.¹
- Curly Fiber technology inhibits the growth of pathogenic bacteria and promotes ACTIVE SKIN PROTECTION.^{1,2}

Product Differentiation

Absorbency Comparison – Briefs Size Large

Source: Data on file.

- Unique 3-part absorbent core with Curly Fiber acquisition layer
- Maintains skin friendly 5.5 pH buffer and protects from risks of IAD
- Broader range of absorbency levels compared to leading competitors
- Superior pad integrity even after multiple voids prevents leakage and enables extended wear times

MoliCare® Skin

Pre-moistened adult washcloths for skin stressed by incontinence

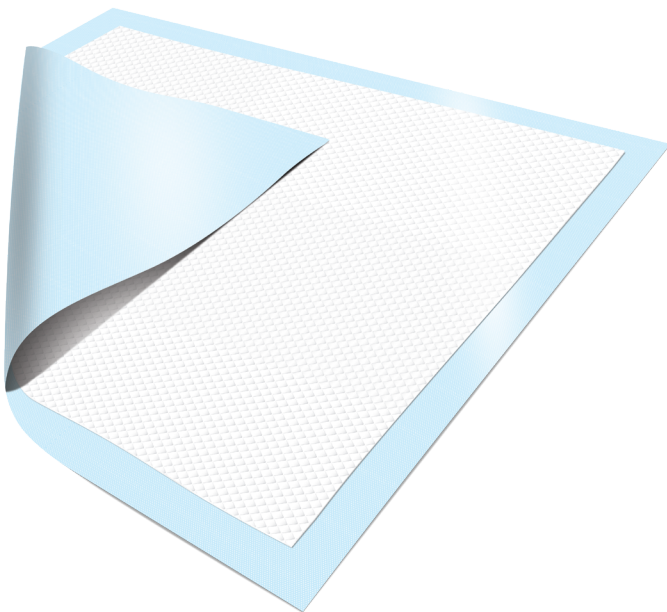

- **Paraben and Formaldehyde-donor free**
- **Hypoallergenic and alcohol-free** to prevent skin irritation
- Helps maintain a **skin-friendly pH of 5.5**
- **Ultra-strong, soft and puncture resistant** cloths are conveniently packaged in a space-saving, resealable pop-up dispenser
- **Gentle Aloe Vera and Lanolin** provide effective cleansing
- More economical than traditional cleansing with soap and water
- Not made with natural rubber latex

MoliCare® Skin pre-moistened washcloths

Order Number	Size	Wipes/pack	Packs/case	Wipes/case
225600	9"x 13"	48	12	576

MoliCare® Repositioning Underpad - Heavyweight

Topsheet and Backsheet

- **High tensile strength backsheet** enables staff to reposition residents up to 375 lbs.
- **Air-permeable** backsheet keeps skin drier
- Ideal for use on low-air-loss mattresses
- Low profile keeps resident closer to the support surface and maximizes its overall effectiveness
- **Soft breathable topsheet** improves patient comfort levels over bulky reusable pads

Absorbency

- **Absorbent core wicks fluid away from skin** and reduces prolonged exposure to moisture
- Feels dry to the touch in minutes
- **Superior leakage control**; eliminates the need for multiple pads

Standards of Care

- Supports CMS current skin integrity and pressure injury prevention recommendations and regulations¹
- Compliments updated infection control protocols²

Cost Effective

- Eliminates need for reusable underpads
- Significantly reduces laundry and labor costs:
 - Utilities, Chemicals, CNA hours, and Reusable underpad replacement costs
