

# Because some of the greatest victories happen off the field.

Products designed to get your athletes back in the game.

## Performance is our passion.

At HARTMANN, we understand the amount of time, dedication and hard work it takes for competitive athletes to consistently perform at the highest level. We also know how suddenly injuries can occur and jeopardize an athlete's capacity to train or compete.

When injuries happen, athletic trainers from high school to the pros rely on the superior quality, strength, durability and effectiveness of HARTMANN's high-performance bandages, athletic tapes and wound dressings.

## Getting back in the game.

Dedicated to helping athletes return to play as quickly and safely as possible, athletic trainers need simple, effective solutions that minimize the impact on athletes' lives. HARTMANN's diverse assortment of bandages, athletic tapes and wound dressings do just that.

Skin-friendly and easy to apply, HARTMANN products are designed to endure the rigors of competition or rehabilitation, providing reliable support and protection throughout the healing process. From sprained ankles to turf burn, HARTMANN is committed to helping athletes get on the road to recovery faster, so they can return to the sports they love sooner.

## Pro's Choice® Adhesive

### Hand-tear athletic stretch tape

- Conforms and stays securely in place during rigorous exercise
- Lightweight fabric combined with high tensile strength provides controlled stretch and compression
- Hand tears for easy application
- Full unwind allows for consistent taping to the core
- Not made with natural rubber latex

## Pro's Choice® Cohesive

### Hand-tear athletic stretch tape

- Adheres only to itself, never skin or hair, without pins, clips or tape
- Conforms and stays securely in place during rigorous exercise
- Lightweight fabric combined with high tensile strength provides controlled stretch and compression
- Hand tears for easy application
- Full unwind allows for consistent taping to the core
- Not made with natural rubber latex

## AC-tape®

### Mid-strength elastic adhesive tape

- All-cotton tape with maximum elasticity conforms to every contour
- Woven strength with high-twist yarns provide compression without restricting movement
- Heavyweight fabric and high tensile strength provide excellent support
- Finished edges minimize lint and loose threads
- Strong, coated adhesive secures tape to application area
- Full unwind allows for consistent taping to the core
- Not made with natural rubber latex

## AC-tape Plus®

### High-strength elastic adhesive tape

- All-cotton tape with maximum elasticity conforms to every contour
- Woven strength with high-twist yarns provide compression without restricting movement
- Heavyweight fabric and high tensile strength provide excellent support
- Feathered edges provide additional comfort
- Blown-through adhesive provides secure fixation to the application area
- Full unwind allows for consistent taping to the core
- Application guideline for precision taping
- Not made with natural rubber latex

# BANDAGES

## Flexicon®

### Premium conforming stretch bandage

- Soft, polyester fabric for added comfort
- Holds dressings securely in place without slipping
- Unique structure allows bandage to cling to itself
- Conforms to difficult-to-dress body contours
- Finished edges minimize lint and unraveling
- Blue application guide helps ensure consistent wrapping

## Conco®

### Conforming stretch bandage

- Secures dressings in place with minimal risk of slipping or constriction
- Clings to itself when overlapped
- Conforms to body contours
- Finished edges minimize lint and unraveling
- Not made with natural rubber latex

## Deluxe® and Deluxe® 480®

### Premium woven bandages

- Orthopedic grade woven bandage made of the finest quality yarn
- High cotton and high thread counts promote superior, consistent elasticity, compression and support
- Ideal for limb support following injury, illness or surgery
- Provides superior compression and support for the treatment of edema, tendonitis, sprains and strains
- Not made with natural rubber latex

## REB® and Econo-Wrap®

### Reinforced woven elastic bandages

- Cotton and polyester blend provides balanced stretch and consistent compression
- Standard, all-purpose and lightweight
- Strong weave for general compression and securing splints, dressings, ice packs and other devices
- Available in double length sizes, both sterile and non-sterile
- Not made with natural rubber latex

## EZe-Band®

### Knitted elastic bandage

- Orthopedic grade knitted bandage for controlled, consistent compression
- Provides superior absorbency and breathability for extended use
- Can be used for the treatment of venous leg ulcers, lymphedema, post-operative edema and for general support
- Easy to apply and secure for patients and caregivers
- Available in sterile and non-sterile
- Not made with natural rubber latex

## Shur-Band® and Shur-Band® Ice Wrap

### Knitted elastic bandages

- Quality knitted elastic bandage for general support, compression and security
- Can be used for treating varicosities, sprains and torn ligaments
- Self-closure flap fastens anywhere on the bandage for quick, easy and secure use without pins, clips or tape
- Available in sterile and non-sterile
- Ice Wrap designed with sewn pouch to hold standard size hot and cold packs
- Not made with natural rubber latex

## Co-Lastic®

### Cohesive elastic bandage

- Highly elastic, self-adherent bandage for a wide range of applications
- Can be used for securing splints and peripheral devices, managing edema and as a positioning aid during procedures
- Does not slip or require frequent adjustment, even in moist environments
- Water resistant, lightweight and comfortable to wear
- Skin-friendly alternative to tape for patients with delicate or traumatized skin
- Adheres to itself without the need for pins, clips or tape
- Conveniently hand tears to desired length
- Easy to apply with quick-find starting edge
- Not made with natural rubber latex

## Med-Rip®

### Self-adherent compression bandage

- Woven with 99% cotton yarn, yet tears easily without scissors
- Absorbent, lightweight and comfortable to wear
- Self-adherent — so no need for additional fixation
- Sticks to itself without the need for pins, clips or tape
- For use in non-slip support and compression applications, edema reduction and as a replacement for adhesive tape and bandages post fracture
- Not made with natural rubber latex

## Comperm® and Comperm®-PD

### Tubular bandage and padded tubular bandage

- Seamless 100% cotton knit bandages with tubular construction
- Provides 360 degrees of uniform, consistent support and low level compression
- Commonly used for edema reduction and post-cast support
- Breathable, air-permeable fabric
- Reusable and machine washable
- Not made with natural rubber latex

# WOUND MANAGEMENT

## Flex-Band®

Fabric adhesive bandages (sterile and individually sealed)

- Skin friendly
- Special shapes to allow for optimal movement
- Does not adhere to the wound bed
- Flexible and snug fitting
- Good adhesion
- Sterile
- Does not contain natural rubber latex

## Omnifix®

Nonwoven retention/abrasion tape

- Skin-friendly adhesive
- Especially soft and comfortable
- Highly permeable to air and water vapor
- Helps reduce potential for maceration
- Provides reliable adherence
- Self-adhesive, nonwoven

## Cosmopor®

Adhesive wound dressing (sterile and individually sealed)

- Soft and gentle to the skin – can be used for patients with sensitive skin
- Conforms well to body contours and remains in place
- Rounded corners help reduce the need to change the dressing
- Good absorbency and cushioning effect
- Fluid repellent backing

## Hydrofilm® Plus

Self-adhesive film dressing with absorbent pad

- Skin friendly
- Easy application while wearing gloves
- Rounded corners reduce potential roll-up and extend wear time
- Highly breathable film reduces maceration risk
- Extremely thin 25-micron film provides high-wearing comfort
- Absorbent pad does not stick to the wound
- Waterproof and germproof
- Sterile

## Hydrofilm®

Self-adhesive film dressing

- Skin friendly
- Easy application while wearing gloves
- Rounded corners reduce potential roll-up and extend wear time
- Highly breathable film reduces maceration risk
- Extremely thin 25-micron film provides high-wearing comfort
- Waterproof and germproof
- Sterile

## HydroTac® and HydroTac® Comfort

Hydroactive foam dressings (sterile and individually sealed)

- Accelerates the healing process
- Stimulates epithelialization process due to growth factor accumulation
- Optimizes pH value for epithelialization
- Reduces the potential for sticking to wounds and supports painless dressing changes
- High retention under pressure, including when used in combination with compression
- Protects wound edges against exudate, reducing the potential for maceration

## RECOMMENDED COMPRESSION / SUPPORT PRODUCTS

### FIXATION

#### Flexicon® and Conco®

#### Medi-Rip®

#### Co-Lastic®

#### Comperm®

- Maintain joint function
- Reduce swelling
- Protect wound
- Secure dressings
- Reduce pain

### SWELLING /EDEMA

#### Deluxe®

#### Comperm®

#### Medi-Rip®

#### Co-Lastic®

#### REB® and Econo-Wrap®

- Minimize swelling/edema
- Compression
- Reduce pain

### SPRAINS, STRAINS AND SUPPORT

#### Pro's Choice® Adhesive

#### Pro's Choice® Cohesive

#### AC-tape®

#### AC-tape® Plus

- Compression
- Support
